

2025 LOVE DATA WEEK SPEAKER

Maureen Henry

Ohio State University

Senior BI Platform Administrator

Maureen Henry is a Senior BI Platform Administrator with The Ohio State University. She supports the university's Tableau Server environment, assists with large-scale executive dashboard design, and co-facilitates Tableau community engagement. During her 8 years with Ohio State, Maureen earned her Certificate in the Practice of Data Analytics, three Tableau certifications, launched the Tableau training program for the university, and created (at the time) the most widely used dashboard at Ohio State. Prior to her work with Ohio State, Maureen was a data analyst at United Way of Central Ohio and United Way of Greater Toledo. Before starting a career in data, Maureen completed her undergraduate studies at The Ohio State University with a BA in Communication Analysis & Practice.

Born and raised in Central Ohio, Maureen is a football season ticket holder. She welcomes any conversation about college football, including trash talk.
